

## Tischkultur

*The Art of Dining within an Intercultural Dialogue between different Societies*

The Initiative is addressing the International Community and would like to foster the dialog between Diplomats, Philanthropists, Leaders, Academics, Business People and NGOs.

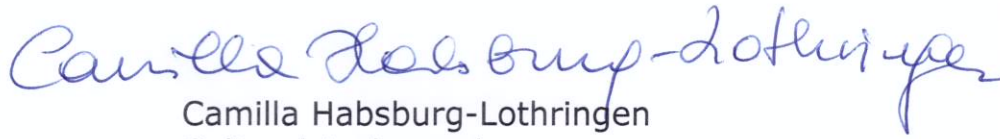

Enjoying Cultural Exchange in a stylefull ambience and setting using traditional elements and products.

In these days we are asked to find peaceful ways to communicate and exchange our opinions respectfully based on common values. In answer to that we are announcing this initiative to stimulate and promote the Cultural Dialogue between Societies.

The world is our platform - and we invite You to become part of it.
